

Portable Hose Assembly

Grab & Go - Factory style assemblies

Customer Value

The Parker Hannifin MiniKrimp™ is the best portable crimper on the market. By utilizing a one-piece, high strength cast aluminum frame, the MiniKrimp™ is light, robust, and highly corrosion resistant.

This compact, all-in-one unit delivers the performance of a full-sized crimper. With no additional power source required for operation and a built in carry handle, the MiniKrimp is easy to transport to remote locations and is ready to go at a moments notice.

Do not use this machine to assemble any size 56, CG, 93N or 43 series **Stainless Steel** fitting. Use a minimum of a 60 ton crimp machine such as the KarryKrimp II.

Product Features:

- Lightweight 30 ton crimper
- Portable
- Easy set-up and operation
- Reduces inventory and saves time, leading to substantial cost savings
- No gauges to set - exclusive Parkalign feature positions the fitting correctly in the die set every time
- Crimp specifications available on Parker CrimpSource (www.parker.com/crimpsource)
- Available in adjustable Hand Pump or Air Over Hydraulic models
- Stand and/or mounting accessories available

ENGINEERING YOUR SUCCESS.

Parflex Minikrimp™

The Standard for Complete Factory Style Hose Assemblies

The MiniKrimp™ generates 30 tons of force and has the same crimping capability as the Parker Parkrimp I and the Parker KarryKrimp. It is available with traditional Hand Pump or Air Over Hydraulic Pump and is capable of crimping a majority of thermoplastic, rubber, PTFE and specialty hoses up to 3/4" I.D.
