

Connection Technology Solutions for Medical and Biotechnology

ENGINEERING YOUR SUCCESS.

Engineering Expertise

Premium Customer Service

Custom Integrated Systems

Innovation Network

Quality Management & Traceability

Project Management

In-house Lab Testing & Certification

Your Reliable Partner

Inventor of push-to-connect technology and leader in quick-coupling solutions, we constantly strive to design, manufacture and customise easy-to-assemble innovative fluid handling integrated systems distributed anywhere across the globe.

Quality management and traceability

Quality management and traceability of our 100% tested connectors/quick connect couplings are at the very heart of our manufacturing processes

In House Lab Testing & Certification

In order to guarantee the integrity of the fluid conveyed, we comply with the most stringent standards and certifications

Premium Customer Service

As a global player, we provide you with premium customer service to any of your locations across the globe

Innovation Network

You benefit from our Parker global innovation network to develop the best integrated solutions and surpass technological challenges

We Provide Innovative Fluid Handling Solutions

- Premium and pure raw material sourcing from our suppliers: bio based PA, POM, PVDF and PSU medical grade resins.
- Expert in sealing and gripping technology
- DFSS, 3D modelisation & ECO design optimisation methodologies
- Fast prototyping : Metal & Plastic 3D printing, quick molding technologies
- Definition of validation plans (product & process) or adaptation of our means to your qualification protocol.
- Individual component traceability
- Preparation, assembly and packaging process adapted to required cleanliness level: clean, oxygen compatible, ISO7 standard.

POM or PVDF coupling system

Degreased connection components for medical fluids

Brass and stainless steel coupling system

316L Stainless steel push-in fittings

Custom Integrated Systems

Concept → Feasibility → Prototype → Development and Qualification → Manufacture

- Partners in your plans, we provide you with support and guidance in your projects from concept to mass production & delivery. You will work in close relationship with one of our PMP project manager.
- As we know your application, as we carry all required in-house capabilities, we deliver fully adapted solutions.

Certificates and Regulations

Certificates of conformity for our products are available on our web site. Contact us for any further information you require.

USP Class VI

ISO 15001

Class ISO 7 Clean Room

ADI Free

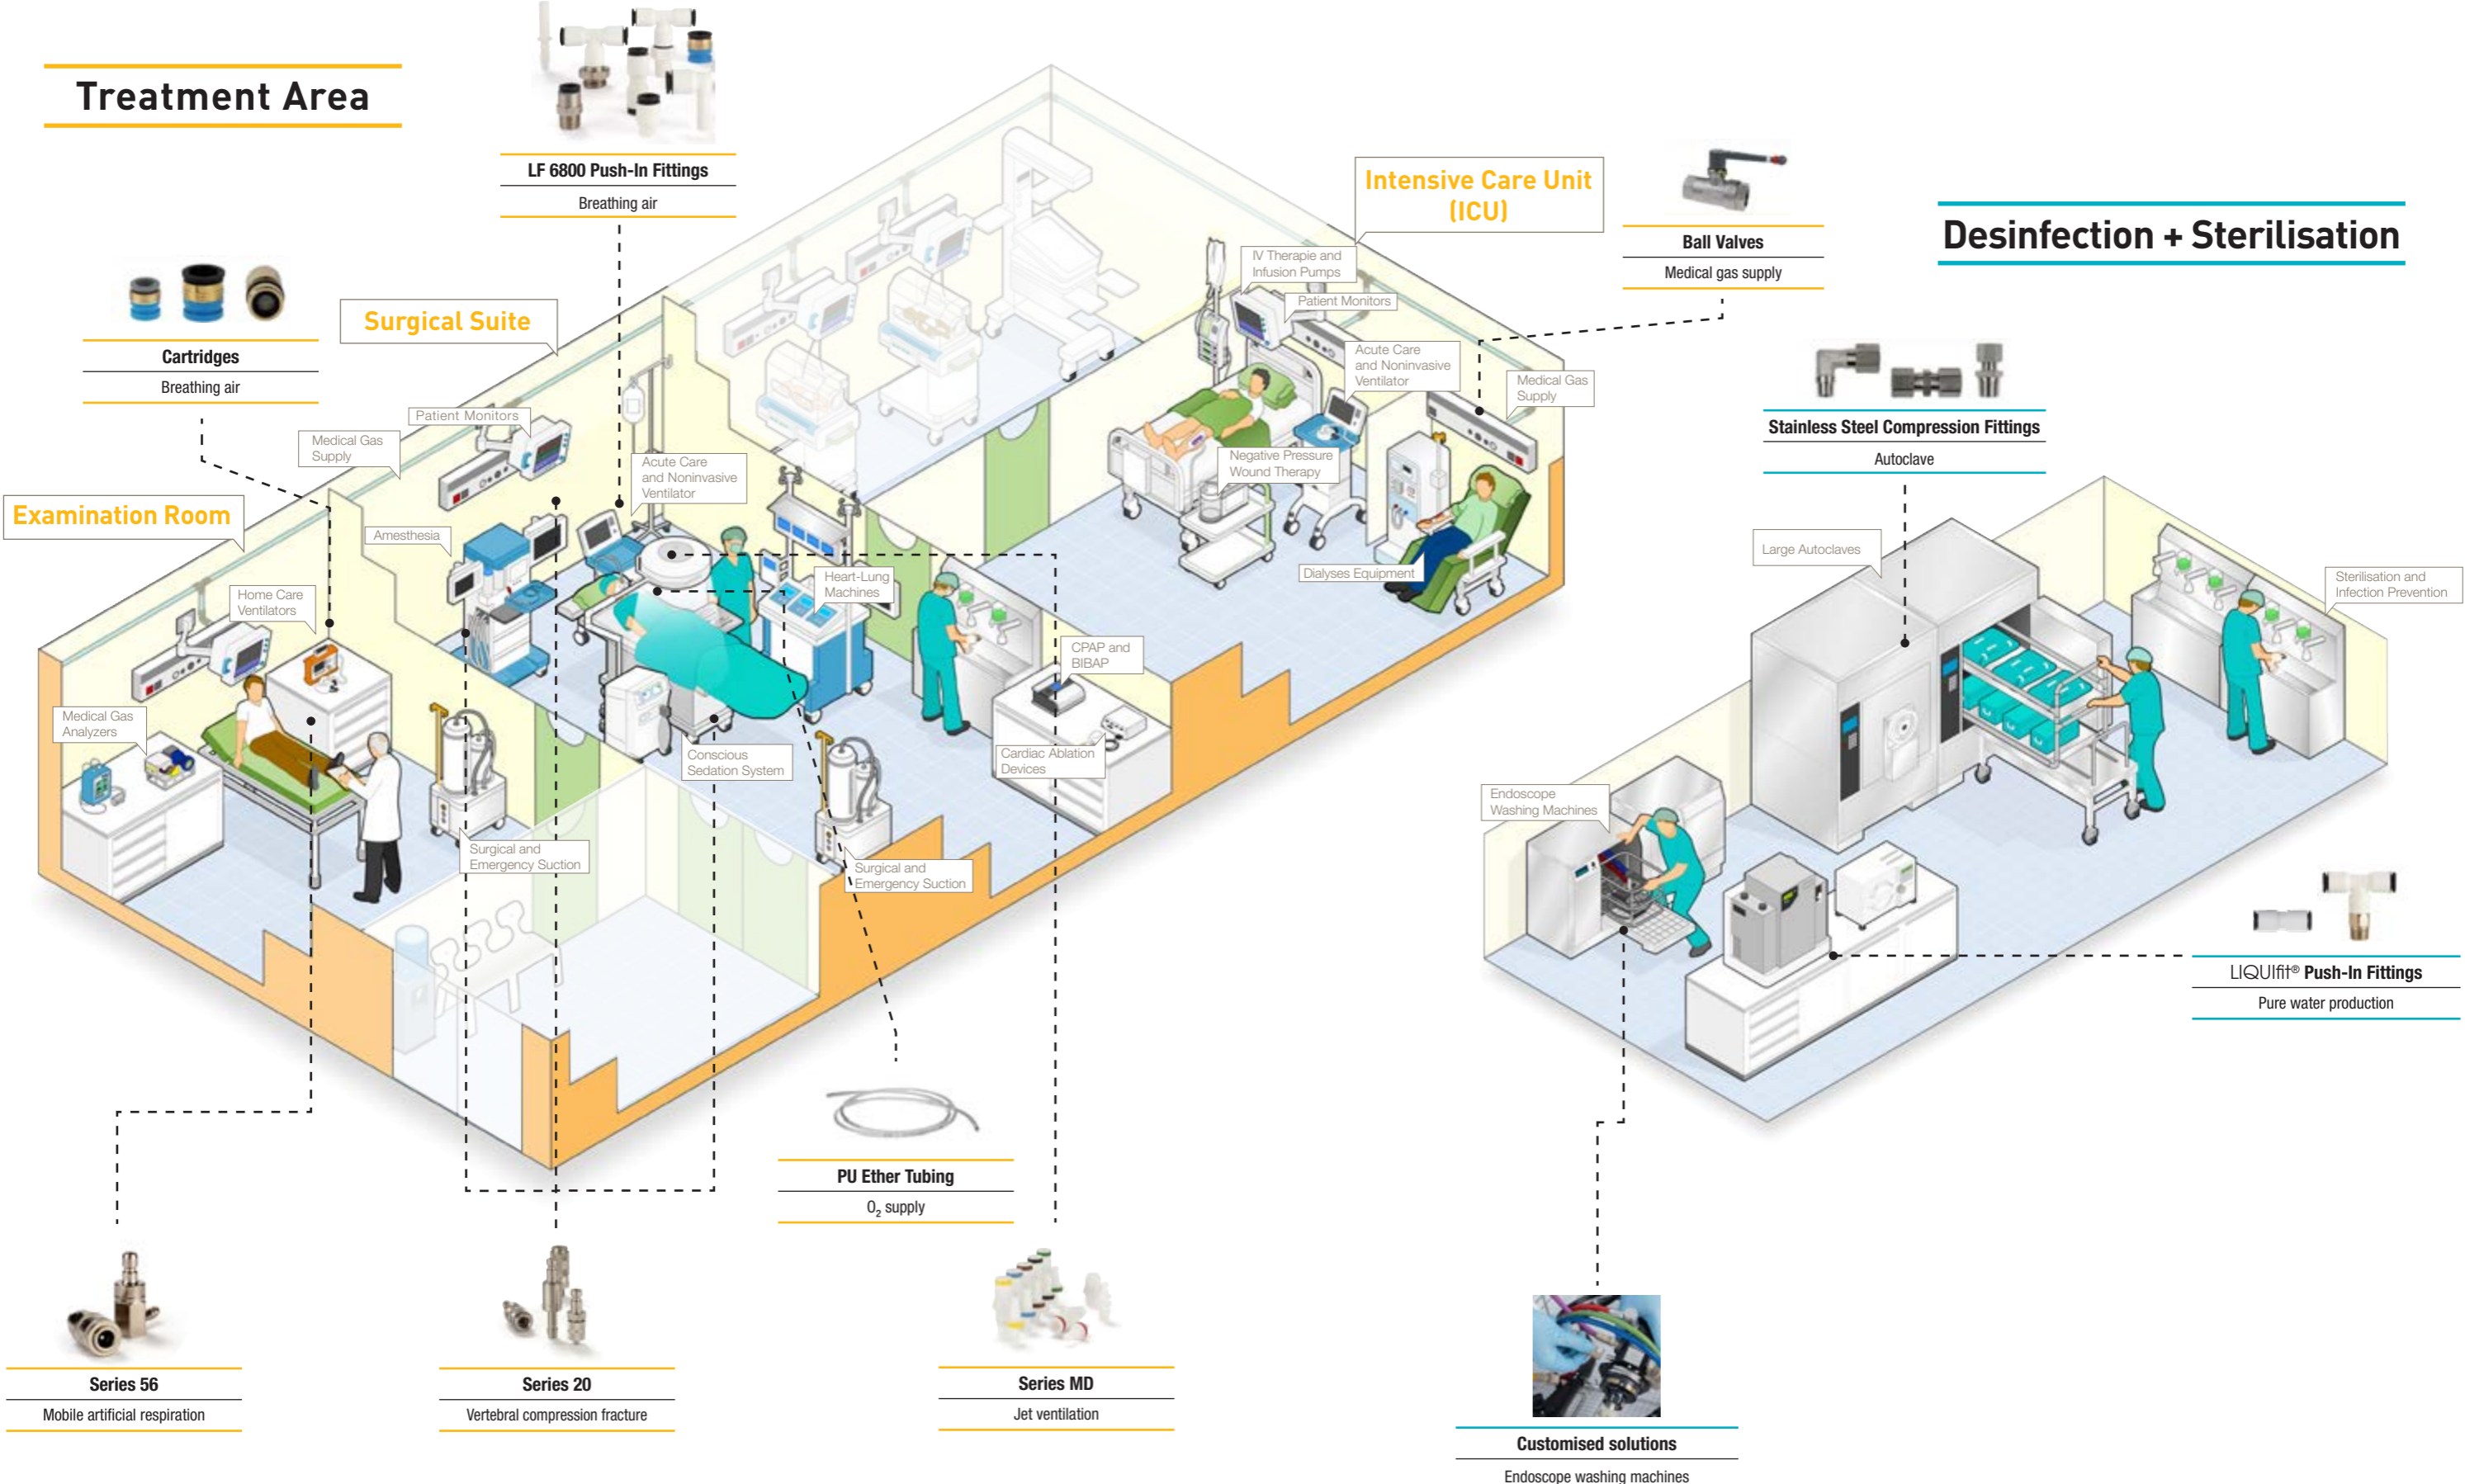

ISO 80369-5

ASTM G93

Product Solutions in the Area of Medical and Biotechnology

Our products in use at a glance
