

Certified  
Accumulator Service Centers  
Fast. Easy. Safe

# Key Benefits

Keeping you up and running, When and Where you need it

Parker Certified Accumulator Service Centers have been established with certified Parker distributors to optimise customer systems by combining industry-leading products backed by quality service, to deliver stress-free accumulator management alongside maximised performance, efficiency and safety.

With locations across Europe, Certified Service Centers offer an integrated solution that combines products, services and technologies, whether on an in-house (at the Service Center), mobile or onsite basis.

With regard to the use of original spare parts, tangible benefits include shorter inspection time and the reduction of complexity in logistics (tracking systems, data monitoring and recording) and documentation, both of which help to lower costs and save time.

## **Safety First - Reduced risk of accidents and protection for your employees by:**

- Utilizing engineers with expert product knowledge in accumulator technology and regulation.

## **Reduced down time and increased productivity through:**

- Warranty validation and preventative maintenance to increase reliability and protect the hydraulic system against loss of performance
- Reduction of inspection time
- Implementation of preventative maintenance

## **Reduction in time and costs from:**

- Simplified logistics and documentation
- Simplification of administration required to comply with regulation/legislation

Certified Service Centers can utilize the Parker Tracking System (PTS) which helps schedule accumulator maintenance, providing automated notifications on inspections and replacement parts.

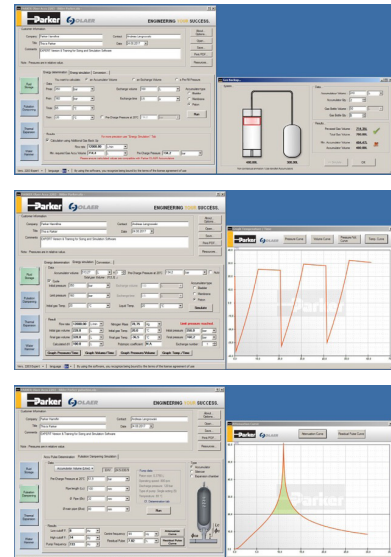

# Services

- In-house • Mobile • On-site

A Parker Certified Service Center provides in-house services such as system improvement, as well as accumulator maintenance, recertification and pre-charging – complete with audits, scheduled inspections and replacements.

From a mobile and on-site perspective, these same services are supported by a fully equipped vehicle, spare parts warehouse, tools, test equipment and professional engineers and technicians in maintenance, service and repair.

## Certified Accumulator Service Centers have the knowledge, expertise and capabilities to deliver a comprehensive service that covers:

<b>Regulatory compliance and certification of all parts of the system</b>	<ul style="list-style-type: none"> <li>• Hydraulic accumulator re-certification</li> <li>• Provision of tracking systems, data monitoring and recording</li> <li>• Optimising customer documentation to fulfil regulatory requirements</li> <li>• Audits, scheduled inspections and replacements</li> </ul>
<b>Hydraulic accumulator maintenance and pre-charging</b>	<ul style="list-style-type: none"> <li>• Full service for just in time solutions and ad hoc repairs</li> <li>• Full service for replacement and planned/preventative maintenance</li> <li>• Commissioning/testing (on-site)</li> <li>• Bladder and Piston Sealing replacement</li> </ul>
<b>System Optimisation</b>	<ul style="list-style-type: none"> <li>• System design and improvement (including Hydraulic Power Units and Accumulator Racks, calculation, training and measurement)</li> <li>• Accumulator replacement</li> </ul>
<b>Asset management</b>	<ul style="list-style-type: none"> <li>• Energy and efficiency audits</li> <li>• Risk assessment and servicing for safety equipment</li> <li>• Asset condition monitoring and prognostics (sensors)</li> <li>• Legal conformity and insurance coverage</li> <li>• Enabling customers to exploit the potential of Condition Monitoring, Industry 4.0 and the use of IoT</li> </ul>

In-house service -  
(At the Service Center)

Mobile service -  
(Engineer will come to you with a fully equipped vehicle, spare parts and test equipment)

On-site service -  
(Engineer/container will provide expert service in even the most remote locations)
