PUREWash

Washdown hose is used in virtually every type of food and beverage processing plant. Sanitation of equipment and work areas is critical in packing houses, hot processing plants, breweries, dairies, wineries, and general industrial applications. Cleaning and purification practices require a commitment to preventative maintenance. This in turn extends the life of equipment and productivity. Devoted to developing products to support

our customers in these critical applications and to complement our food hose line, Parker has developed PUREWash hoses, 7680 and 7685, replacing our existing washdown hoses.

Additional Features include:

- FDA compliant tube (7680 ONLY)
(not to be used in food contact/transfer)

- Enhanced printed layline
- Non-marking covers
- Additional cover colors for a cleaner look
- Compatible with Parkrimp crimpers or variable crimpers. Please refer to Crimpsource for specifications.
