Leakage rates for low-pressure couplings

The following information are valid for the LPCE low pressure products produced at location Eberdingen-Nussdorf (Germany).

These products are listed in the Parker catalogues CAT/3800-PNEU and CAT/3800-MOLD.

Leakage rates:

- Plug and Couplings connected: $4,0 \times 10^{-4}$ mbar³/s
- Plug disconnected: $< 10^{-6}$ mbar³/s
- Coupling connected: $< 10^{-6}$ mbar³/s

The leakage rates are measured under the following test conditions:

Test specification: DIN 13185

Test media: Helium

Test pressure: 4 bar
