

BALDWIN PRODUCT PICK

BF46157

FUEL SPIN-ON

Baldwin's BF46157 Fuel Spin-on is designed to protect a variety of John Deere equipment, including dozers, generators, harvesters, industrial engines, loaders, motor graders, sprayers and tractors.

The BF46157 features anodized aluminum threads, which are stronger and more dimensionally stable than plastic threads that can shrink or swell with humidity changes, heat and other environmental factors. The BF46157 fuel spin-on is compatible with OE bases.

CROSS-REFERENCE		APPLICATIONS	
John Deere		DZ115390, RE551508	
SPECIFICATIONS			
THREAD	M94 x 3.0 Butress
