

BF46170

Fuel/Water Separator Spin-on with Drain

NEW RELEASE

Clean fuel keeps machines and equipment running. Power Generators need fuel/water separators that will protect the fuel system while delivering pristine/clean fuel. Baldwin BF46170 Fuel/Water Separator Spin-on is a filter that delivers that kind of performance. Keeping harmful water and contaminants away from combustion is accomplished at OE or better performance levels. This filter comes with a “hose barb” to connect to the piping (tube) provided by the OE.
