## BF46245

### FUEL SPIN-ON

Baldwin's BF46245 Fuel Spin-on features super absorbent media and is designed for removing free and emulsified water in a single pass.

The BF46245 can be added to bulk fuel systems operating at high flow rates, and features premium seals and corrosion resistant internals for maximum durability with a variety of conventional and bio fuels.

To keep your operation running smoothly, utilize the Baldwin BF46245 with the appropriate service filter to remove contaminants from your application.
