

BF63000

Fuel Spin-on

NEW RELEASE

Diesel fuel filtration has become a serious business. Water and contaminant removal, down to the smallest particle sizes at the highest efficiencies, needs to be continuously performed in order to provide the cleanest possible fuel to your fuel systems. The Baldwin BF63000 fuel spin-on filter delivers exactly that.

When you want to protect your fuel system at OE performance levels and beyond, turn to Baldwin for filtration that protects you from possible premature downtime and costly repairs.
