

## PA31006

Primary EnduraPanel Air Element

## PA31005, PA31007

Secondary EnduraPanel Air Elements

### NEW RELEASE

Baldwin's new line of EnduraPanel air filters, including the PA31006, are built to last. They deliver superior efficiency throughout the entire service interval with dirt holding capacity surpassing the OE filters. Structural endurance testing proves once again that Baldwin exceeds the OE performance.

The Secondary EnduraPanel Air Elements come in two configurations. The PA31005 with foam media should be used on models with a Mass Air Flow (MAF) Sensor installed. The PA31007 with pleated media is intended for models without the sensor.

### APPLICATIONS

Massey Ferguson WR9725 Windrower with Cummins 3.3L Engine;  
JLG G10-55A, G12-55A Forklift with Cummins QSB 4.5L Engine,  
Skyjack VR1056E Telehandler with Cummins QSB 3.3L Engine
