PE17002 KIT

DIESEL EXHAUST FLUID FILTER KIT

Baldwin's PE17002 KIT is a Diesel Exhaust Fluid (DEF) filter designed for Freightliner, Kenworth, European Mercedes-Benz and Western Star trucks.

Newer diesel engines are equipped with Selective Catalytic Reduction (SCR) systems to reduce harmful nitrogen oxide (NOx) emissions. These SCR systems require Diesel Exhaust Fluid (DEF) to keep the SCR system operating as intended. Use the PE17002 KIT to keep the SCR system free of contaminants and reduce harmful NOx emissions.
