

PARKER EXTENDED WARRANTY

ENGINEERING YOUR SUCCESS.

TOTAL QUALITY ASSURANCE

In your business, you need equipment you can rely on. When you choose Parker, you are investing in world class engineering and manufacturing excellence, with product solutions designed for a lifetime of efficient operation. And now with the additional peace of mind, you can enjoy a Parker extended warranty for up to 5 years, free of charge. In addition, under certain conditions, NITROSource and NITROSource Compact nitrogen gas generators can benefit from a total of 10 year warranty covering the carbon molecular sieve (CMS) and pressure envelope.

Scheduled maintenance taken care of

With the Parker extended warranty, you'll benefit from the certainty that comes with scheduled servicing and expert maintenance carried out by highly trained technicians, using only genuine approved parts and consumables. Should the unexpected happen, you are entitled to replacement parts.

Freedom to focus on business

You'll be able to accurately forecast equipment maintenance costs for up to five years ahead. You can be confident of maximum production up-time and operating performance of your equipment - leaving you free to focus on developing your business.

“In my business, forward planning and cost management are vital”

Managing Director, processing industry company, Germany

PARKER EXTENDED WARRANTY

MAXIMISING EFFICIENCY

All Parker equipment is supplied with 1 year warranty as standard. As part of our quality commitment to customers, you are automatically entitled to a further 4 years cover if you purchase from selected ranges, when you register your purchase online.

Register your product within 180 days of the date of invoice, for the extra peace of mind. The only condition is that you maintain your product through an approved Parker service programme.

Free replacement parts

Extended warranty is available for 4 additional years. In the case of NITROSource and NITROSource Compact, 9 additional years covering the CMS when using Parker desiccant dryer based compressed air pre-treatment incorporating an approved activated carbon stage. In the event of any breakdowns or faults, the warranty means that you will be entitled to free replacement parts.

Expert advice

With the Parker service programme, you can be confident that you're benefiting from the best advice, genuine parts and the highest quality service. So your equipment will always be working to its full potential.

Parker service - you're in good hands
